1:45 - 3:15 p.m. Andrew Steed: "We Are The People We Have Been Waiting For"

Join Andrew Steed professional storyteller, shamanic practitioner, master firewalk instructor and speaker for an insightful and joyful exploration into how we live our lives on the edge in the center of our own story. In a time when the veil is thinning and the world appears to be moving faster than ever, fear and chaos can be overcome by being present with ourselves, waking ourselves up from sleepwalkers to spiritwalkers, shifting perspective from Impossible to I'm possible and living as the heroes of our own stories rather

than the victims. Andrew has been self employed as a speaker in the corporate, non profit and educational sector, a storyteller, shamanic practitioner, leader of sacred travel to the British Isles and Ireland and as a facilitator of self-development workshops since 1996. He has a BA in Communication Arts and Theatre, he has studied indigenous practices in Europe, Asia, North and South America and he has recently published a book on his travels in the Isles.

3:30 - 5:00 p.m. Rev. Laura Jackson: "Where We Are Going: The 2012 Gateway"

Becoming well-known for holding the keys to earth changes and 2012, Rev. Laura Jackson began speaking at Edgar Cayce's A.R.E. in 2008 as part of their daily lecture series. Cayce's readings serve as the foundation of her talks, combined with her background in earth changes and metaphysics. In today's changing world, she demonstrates how current geophysical activity directly correlates with Cayce's readings. Her research substantiates the metaphysical link

between earth changes and human consciousness. Rev. Jackson shows how 2012 demarcates the end of one cycle and the beginning of another not only in the Mayan Long Count calendar but in many ancient cultures. 2012 is the gateway to the dawning of a new era known as oneness consciousness. Rev. Jackson masterfully connects all the pieces and shares the missing link for many — where we are going.
